## GO RHINO'S FAMOUS SPORT BAR 2.0 NOW AVAILABLE FOR THE 2022-23 TOYOTA TUNDRA

Now it's no longer necessary to choose between adding functional lighting or securing your truck bed with a cover while making a dramatic appearance upgrade.

Each Sport Bar 2.0 allows you to mount a light bar or individual lights\* upon its standard fixed light mount. The optional Power Actuated Retractable Light Mount will allow you to retract or raise your lights at the flick of a switch from inside the vehicle. This ability to retract your lights without leaving the cab will be especially appreciated the next time you pull into a low ceiling parking garage or need better aerodynamics on the highway.

*\*Lights sold separately. Light mount can accommodate one light bar (up to 38" long) or up to six individual lights (up to 6").*

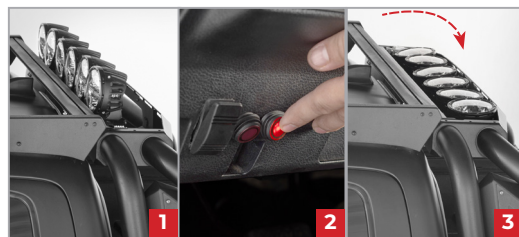

Go Rhino's Sport Bar 2.0 offers further convenience by working with your favorite snap, retractable and some folding tonneau cover.

Now Available for the 2022-23 Toyota Tundra

Works with most tonneau covers

Sport Bar 2.0 available with or without **Power Actuated Retractable Light Mount**. Lights sold separately.
